

We are seeking for our headquarters in Heidelberg a highly motivated

Full Stack HANA Expert Developer (m/f/d)

As a member of our Software Development team, you will be working together with a team that adopts to Agile Development Processes (SCRUM) and having the following tasks and responsibilities:

- Design and develop both XSC and XSA architecture-based SAP HANA applications
- Design and develop application server logic (XSC and XSA Node services) in general including DB connection and DB queries (SQL) on HANA Database
- Design and develop dynamic frontends for data visualization & data analysis using SAP UI5 framework
- Test automation of SAP HANA based applications

Your skills and qualifications

- Profound knowledge of SAP HANA technology and architecture with minimum 3 years of work experience in the platform during which you have successfully developed, and deployed HANA based applications (understanding of HANA server and components would be considered as a plus)
- Object-oriented development expertise in JavaScript (Node.js), Java (J2EE) and Python
- Design and use of web services (XSJS, REST, ODATA, JSON based ideally)
- Experience with JavaScript frameworks (SAP Open UI5 and similar)
- Experience developing web interfaces (HTML, XML, CSS, etc.)
- Familiar with SQL, Database development, Data Base Modelling, Query Optimization, Tuning for HANA Database

- Use of software configuration management tools: version control (GIT or Mercurial ideally), bug Databases, automated build systems, etc.
- Knowledge of caching, optimization for web-based applications
- Full English proficiency

We offer

- An innovative, exciting international company that values employees who can think outside of the box, who want to make a difference and strike out in a new direction
- A challenging, stimulating scientific and professional environment with a focus on innovation and on the continuous development of our company
- A modern working environment in a new office building
- A multicultural team and attractive company events, together with an open culture of trust
- Excellent location in the center of Heidelberg
- Opportunities for personal development in a global company
- Competitive compensation and attractive benefits package, flexible working models
