

Curriculum vitae

Dr. Friedrich von Bohlen und Halbach

Friedrich von Bohlen und Halbach is the CEO and co-founder of Molecular Health GmbH. He has been active in the Life Sciences since the beginning of his advanced education and he brings more than 20 years of entrepreneurial experience to the industry.

Together with Dietmar Hopp and Christof Hettich, he co-founded dievini in 2005. Since then, he has held the role of Managing Partner of dievini. He also serves as the Chairman or as a Board Member of companies which are a part of the dievini portfolio.

Friedrich von Bohlen began his professional career in 1992 as a Project Manager in research & development at Fresenius AG, Bad Homburg, following which he was Assistant to the Chairman of the Supervisory Board of FAG Kugelfischer KGaA, Schweinfurt. He then served as CEO of Wasag Chemie AG, Essen. In 1997 he co-founded Lion Bioscience AG, Heidelberg (now Expedeon AG) which he served as CEO until 2004.

Currently he is Chairman of the Supervisory Board of Apogenix AG and Novaliq GmbH as well as Board member of AC Immune SA, CureVac AG, immatics biotechnologies GmbH and Heidelberg Pharma AG. Additionally, he is also Member of the Evaluation Board of the Zurich based Wyss Translational Center.

Friedrich von Bohlen holds a Diploma in biochemistry from the University of Zurich and a PhD in neurobiology from the Swiss Federal Institute of Technology.
